MASTER IN DESIGN AND DISTRIBUTED INNOVATION

by Fab City

The program is oriented to change makers, active people who wants to make sustainable, social, environmental and economical local transformations.

An MDDI student is a person who is interested holistics technologies, local communities, collaborative making and regenerative design. To locally engage with their communities and industries, addressing positive planetary changes.

Globally Connected,
local changemakers

Objectives

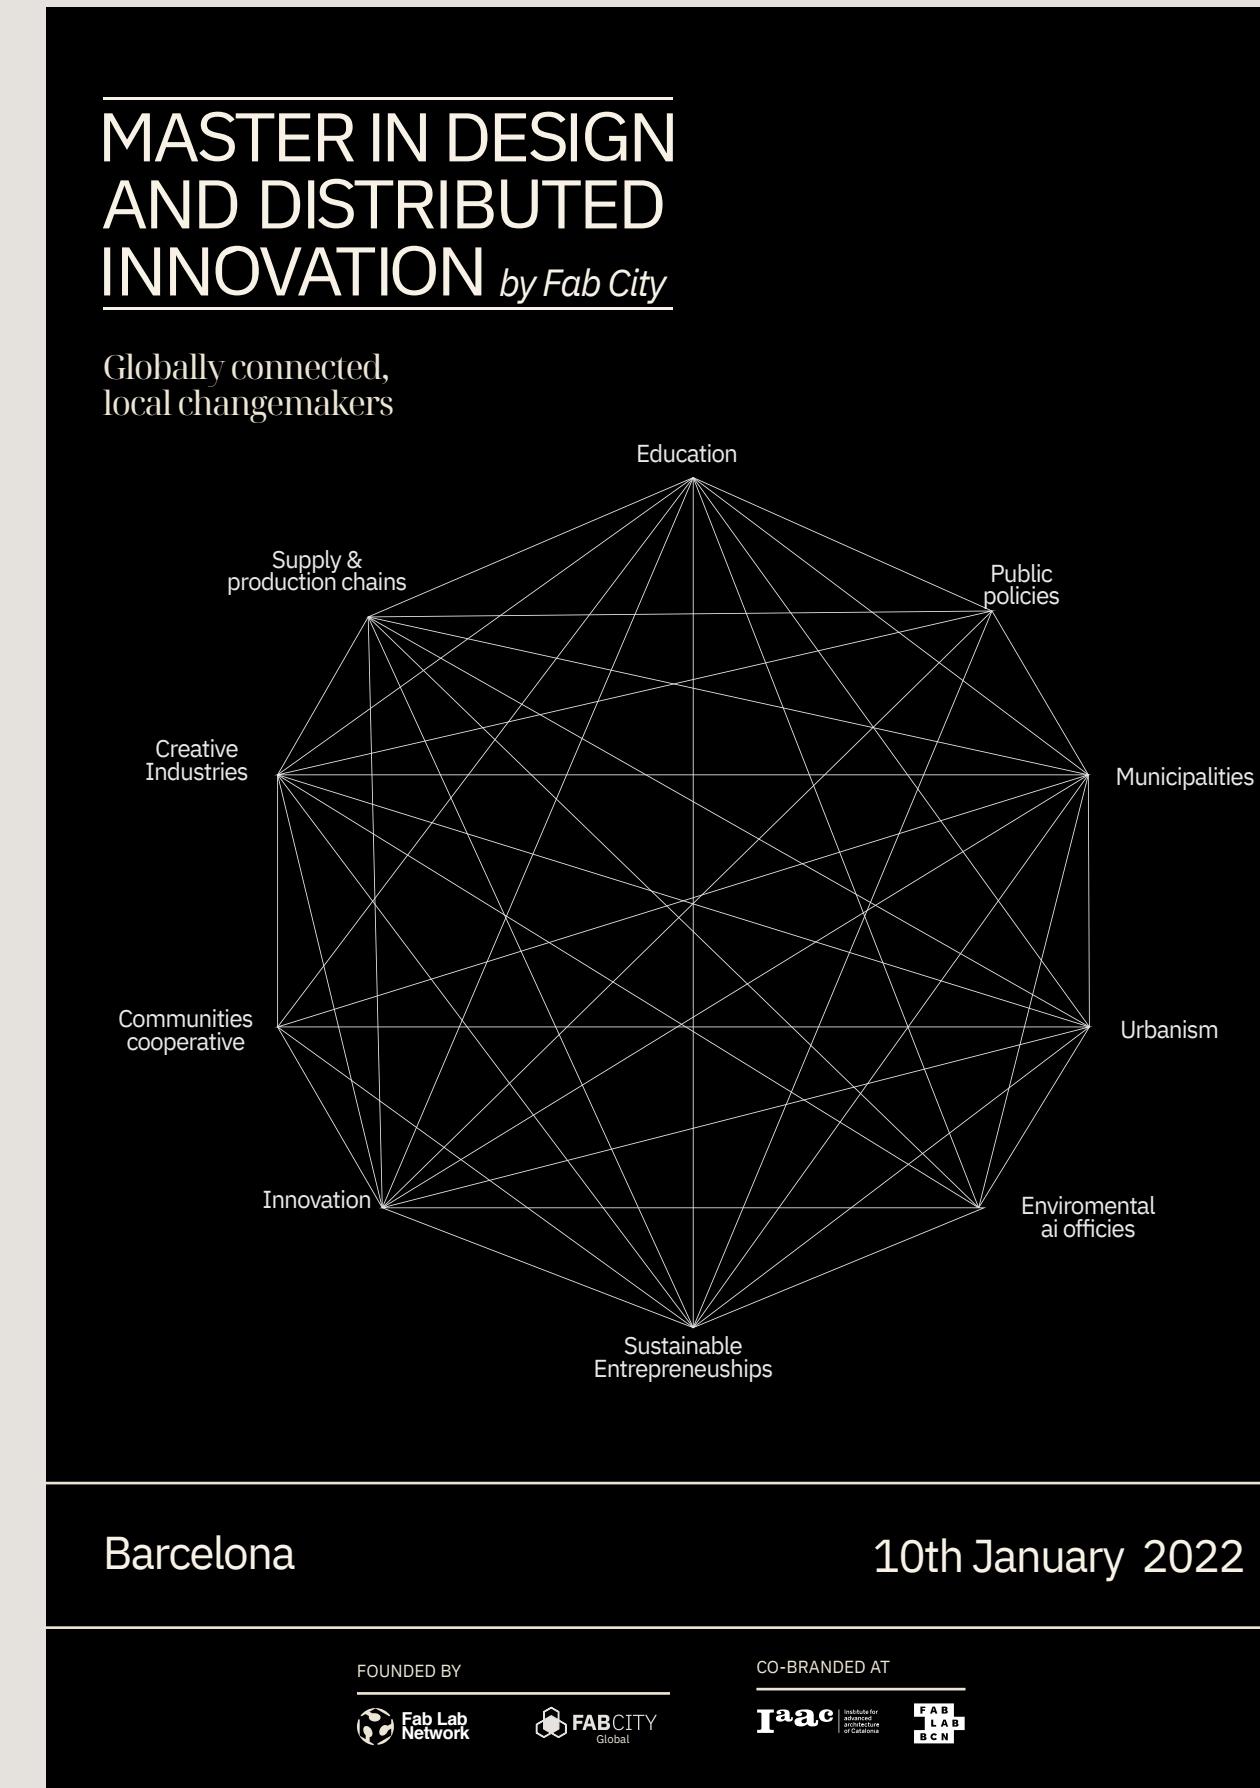

Hybrid learning experiences with practical applications

Connecting people to generate a measurable and positive impact in their communities and bioregions

Turning local economies to become planetary conscious, social integrated and technology driven

MDDI by Fab City
Master in Design and Distributed Innovation

Program Structure

As a hybrid program, MDDI students will experience a mix of online seminars with in-person mentorships and production of physical prototypes in their local nodes. The program is structured in three modules of one trimester each, plus a final project implementation. Each module focuses on different levels of the full stack, which is developed in three tracks: Natural Resources, Communities and Technology.

Globally Connected, local changemakers

Objectives

- Hybrid learning experiences with practical application
- Connecting people to generate a measurable and positive impact in their communities and bioregions
- Turning local economies to become planetary conscious, social integrated and technology driven

Barcelona A new industrial revolution

Historic areas to become drivers of a new industrial revolution in the creation of the productive city that encourages sustainable transformation

Our vision

Change the productive urban model based on a linear and entropic process, for one based on circularity, local communities, and digital tools.

About the Network

A peep at some distant orb has power to raise
and purify our thoughts like a strain of sacred
music, or a noble picture, or a passage from the
grander poets. It always does one good.
